MATERIAL CARBON STEEL + ALUMINIUM ALLOY + HANDMADE GLASS
COLOR COPPER WIRE DRAWING + CLEAR / AMBER / SMOKY GRAY

Soda water is used to trap air in a super heated glass matrix, which is vertically stretched and folded back onto itself numerous times. As the glass cools, the folding motion along the grain of the loop turns the entrapped air into microfilaments that give the piece a pearlescent optical quality.

A combination of a robust marble base and an oval-shaped smoked glass dome. Designer found the inspiration for the soft curves of Karl-Johan while searching for wild mushrooms in an autumn forest – the shape of the lamp is indeed reminiscent of a mushroom. The poetic appearance and gentle light of Karl-Johan will complement any bedroom or add an elegant touch into the living room.
